

TABLE OF CONTENTS

Alexandra W. Busch	
Vorwort	XI
Luc Robbiola	
Preface	XIII
Acknowledgements	XV
Introduction	1
The Elite Jewels in their Geographical, Historical, and Societal Context (<i>Estelle Ottenwelter · Jan Mařík</i>)	5
Territory	6
Historical Context	7
Great Moravia	7
Bohemia	9
Christianity	10
The Aristocracy and Elite Jewellery	12
The Rise of the Aristocracy	12
Elite Burial Rites: Archaeological Evidence	13
Elite Jewellery	15
Economy and Trade	18
Settlement Structure	19
Jewellers and their Workshops	20
The Main Archaeological Sites	23
Mikulčice	23
Prague Castle	27
Summary	29
Methodology and Experimental Approach	31
The State of Research	31
The Methodology, Jewels, and Analytical Tools and Methods used in the Investigation	33
Methodology	33
The Jewel Assemblage	36
Location of the Jewels 37 · Main Types of Jewel in the Assemblage 38	
Type of Material used 40 · State of Preservation 40 · Conclusion 40	
Investigation Methods: Tools and Instruments – Principles and Limitations	40
Stereomicroscopy 42 · X-Ray Radiography 46 · Metallographic Examination 48	
Scanning Electron Microscopy with Energy Dispersive X-Ray Analysis (SEM/EDS) 51	
Focused Ion Beam (FIB) mounted on Field Emission Gun-Scanning	
Electron Microscope (FEG-SEM) 57 · Experimental Archaeology 59	

The Effects of Long-Term Burial, Restoration Treatments, and Storage	61
The Effects of Long-Term Burial in an Aerobic Terrestrial Environment	63
The Alteration of Gilded Copper Alloys 64 · The Alteration of Silver Alloys 69	
The Alteration of Gilt Silver Alloys 72 · The Alteration of Gold Alloys 72	
Restoration Treatments	74
The Impact of Chemical Treatments 76 · The Impact of Electrochemical Treatments 78	
Modern Sheet Metal and Solder used in Joining and Gap-Filling 78	
Environment, Storage, Manipulation, Tarnishing	83
Summary	85
 Technical Study of the Jewels: General Approach	87
Raw Material	87
Sources – Provenance	87
Refining	88
Alloying and Debasement	88
Steps of Manufacture and Tools used	89
Manufacture of the Components	89
Sheet Metal 90 · Hemispheres, Shells, Bosses 91	
Wires and Strips 91 · Chains 100 · Granules 101	
Assembly	101
Mechanical Joins 101 · Soldering 101	
Decorative Techniques	112
Chasing 112 · Engraving 114 · Stamping 116 · Granulation and filigree work 116	
Coloured Glass Cabochon Settings 121 · Gilding 123	
Surface Finishing	125
Summary	126
 Technical Study: <i>Gombiky</i> (Hollow, Spherical Pendants)	127
Description and Archaeological Context	127
Construction	127
Decoration and Iconography	128
Chronology	131
Steps of Manufacture	133
Manufacture of the Various Components	133
Soldering in two Hemispheres	133
Chasing Decoration	134
Soldering the Suspension System	135
Soldering the Decorative Components	135
Gilding by Fire-Gilding	135
Parameters for Comparison	135
Investigation of Selected <i>Gombiky</i>	137
Characteristics, Typology, and Archaeological Context	137
Gold Alloys 137 · Silver Alloys 138 · Gilded Copper 143	
Materials Characterization	145
Gold Alloy <i>Gombiky</i> 145 · Gilded Copper <i>Gombiky</i> 146 · Silver Alloy <i>Gombiky</i> 152	
Gilt Silver <i>Gombiky</i> 152	

Size, Weight, Number of Components, Manufacturing Time, Soldering Cycles	153
Tool Marks, Defects, Repairs, Wear	155
Quality, Workshops	156
Case Studies	158
Moravia	158
Case Studies A: Gold <i>Gombiky</i> 158 · Case Studies B: Gilded Copper <i>Gombiky</i> 168	
Case Studies C: Silver <i>Gombiky</i> 177	
Bohemia	187
Case Studies A: Gold <i>Gombiky</i> 187 · Case Studies B: Silver <i>Gombiky</i> 190	
Case Studies C: Gilded Copper <i>Gombiky</i> 194	
Bavaria	216
Case Studies A: Silver <i>Gombiky</i> 216	
Summary	219
 Technical Study: Earrings	225
Definition and Archaeological Context	225
Construction	226
Grape-Shaped Earrings	228
Globular Earrings	229
Pseudo-Globular Earrings	230
Basket Earrings	231
Earrings with Chainlets	232
Zoomorphic Earrings	232
Drum Earrings	234
Star-Shaped Earrings	234
Chronology	234
Steps of Manufacture (<i>Ludmila Barčáková</i>)	236
Investigation of Selected Earrings	239
Characteristics, Typology, and Archaeological Context	239
Gold, Gilt Silver, and Gilded Copper 239 · Silver Alloys 239	
Materials Characterization	245
Gold Alloy 245 · Gilt Silver and Gilded Copper 247 · Silver Alloys 247	
Size, Weight, Number of Components, Manufacturing Time, Soldering Cycles	249
Tool Marks, Defects, Repairs, Wear	251
Quality, Workshops	252
Case Studies	255
Moravia	255
Case Studies A: Gold Earrings 255 · Case Studies B: Silver Earrings 263	
Bohemia	270
Case Studies A: Gold Earrings 270 · Case Studies B: Gilt Silver Earrings 272	
Case Studies C: Silver Earrings 274	
Bavaria	286
Case Study A: Silver 286	
Summary	289

Technical Study: Necklaces with <i>Kaptorgy</i> , Chains and Beads	293
Definition and Archaeological Context	293
<i>Kaptorgy</i>	293
Beads	295
Chains	297
Construction	297
<i>Kaptorgy</i>	297
Beads	299
Chains	302
Steps of Manufacture (<i>Ludmila Barčáková</i>)	303
<i>Kaptorgy</i>	303
"Box and Lid" Type 303 · "Capsule" Type 304	
Beads	305
Open Filigree Beads 305 · Metal Sheet Beads 306	
Chains	307
Investigation of Selected <i>Kaptorgy</i> , Chains and Beads	309
Characteristics, Typology, and Archaeological Context	309
<i>Kaptorgy</i> 312 · Beads 313 · Chains 314	
Materials Characterization	315
Silver Alloys 315 · Gold Alloys 318 · Gilt Silver 318	
Size, Weight, Number of Components, Manufacturing Time, Soldering Cycles	318
<i>Kaptorgy</i> 318 · Beads 320 · Chains 322	
Tool Marks, Defects, Repairs, Wear	322
Quality, Workshops	325
Case Studies	327
Bohemia	327
Case Studies A: Silver 327	
Towards a Synthesis	345
Construction	345
Decoration	347
Materials Characterization	348
Provenance	353
Size, Weight, Number of Components, Manufacturing Time, Soldering Cycles	354
Wear, Repair, Tool Marks, Quality, Workshops	358
Wear	358
Defects and Repairs	360
Tool Marks	360
Workshops, Quality	363
Influences, Imports, Analogies	367
Conclusion	379
Research Outcomes and Contribution	379
Future Work	380

Résumé: Bijoux de l'Élite du haut Moyen Age en Moravie et Bohême: Techniques de Fabrication, Montage, Matériaux et État de Conservation	381
References	417
Abbreviations	427
Sites	427
Methods of Analysis	427
Appendices	429
Appendix 1. Table of the investigated artefacts	430
Appendix 2. Results of analysis: Gold alloy <i>gombiky</i>	439
Appendix 3. Results of analysis: Silver alloy <i>gombiky</i>	441
Appendix 4. Results of analysis: Gilded copper alloy <i>gombiky</i>	449
Appendix 5. Results of analysis: Gold alloy earrings	454
Appendix 6. Results of analysis: Silver earrings	459
Appendix 7. Results of Analysis: Gilt silver and gilded copper earrings	472
Appendix 8. Results of analysis: <i>kaptorgy</i> and chains	473
Appendix 9. Results of analysis: beads	476
